SUMMARY

Graduate Software Engineer with a BSc (Hons) in Information Technology, specialized in Software Engineering from the Sri Lanka Institute of Information Technology (SLIIT), with hands-on experience in full-stack web development using React, Laravel, Node.js, Next.js, and ASP.NET. Completed a full-stack development internship with contributions to authentication, book management, Stripe payment integration, Laravel queue-based email notifications, API testing, and debugging. Experienced in building REST API-based web applications with databases such as MySQL, PostgreSQL, and MongoDB. Seeking an Associate Software Engineer role to contribute to scalable software solutions while continuing to grow as a full-stack developer.

EXPERIENCE

Intern Full Stack Developer | Zincat Technology | Remote

Dec 2024 – Sep 2025

- Developed and maintained features for a Library Management System using Laravel, React, and Tailwind CSS.
- Implemented core modules including user authentication, book management, fine payment handling, and email notifications.
- Integrated Stripe API for fine payment processing and supported front-end/back-end API communication.
- Used Laravel queues to handle email notifications efficiently in the background.
- Tested, debugged, and validated APIs using Postman.
- Managed source code and collaboration workflows using GitHub.
- Worked remotely with supervisors through regular Microsoft Teams meetings and contributed to real-world project development.

EDUCATION

BSc (Hons) in Information Technology Specialized in Software Engineering - Second Class (Lower Division)
Sri Lanka Institute of Information Technology (SLIIT)

Sep 2022 – Sep 2026

- Relevant areas: Web Application Development, Mobile Application Development, Enterprise Application Development, Database Management, Software Engineering, Machine Learning and AI-based research.

Dharmapala Vidyalaya, Pannipitiya

Jan 2008 – Feb 2022

- GCE Advanced Level Examination: 3C's in Maths Stream
- GCE Ordinary Level Examination: 7A's and 2B's

NON-TECHNICAL SKILLS

- Teamwork
- Communication
- Quick Learner
- Adaptability
- Leadership
- Critical Thinking

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, Java, C#, Python

Frontend: React, Next.js, Tailwind CSS, HTML, CSS

Backend: Laravel, Node.js, Express.js, ASP.NET, FastAPI, REST APIs

Databases: MySQL, PostgreSQL, MongoDB, Firebase Firestore, SQLite

Mobile Development: Flutter, Kotlin, Android

Tools & Platforms: Git, GitHub, Postman, Swagger, Docker, Microsoft Azure

Other: JWT, Stripe API, Cloudinary, Basic OWASP Security Practices

PROJECTS

Secure Cloud-Based Event Booking Platform | 2026

Live: <https://lumaevents.vercel.app/>

Technologies: Node.js, Express.js, Next.js, Microsoft Azure, Docker, JWT, Cloudinary, Snyk

- Developed features for a microservice-based event booking platform, including event management, seat availability, booking, payments, and notifications.
- Worked mainly on the Event Service and supported API integration with other services.
- Deployed the system using Microsoft Azure and Docker.

Library Management System | 2025

Technologies: Laravel, React, Tailwind CSS, Stripe API

- Developed a full-stack library management system with user authentication, book management, fine payment handling, and email notifications.
- Integrated Stripe API for fine payment processing.
- Implemented Laravel queue-based email notifications and tested APIs using Postman.

AI Sinhala Assistant | 2026

Live: <https://www.sinhalalearn.online/>

Technologies: Python, FastAPI, PostgreSQL, Next.js

- Developed an AI-powered Sinhala learning assistant to provide automated feedback and personalized learning support.
- Built backend APIs using FastAPI and managed data using PostgreSQL.
- Contributed to a research-based software solution focused on improving Sinhala language learning.

EV Charging Station Management System | 2025

Technologies: React, ASP.NET, Java Android, MongoDB, SQLite, JWT

- Developed a web and mobile application for managing EV charging stations.
- Implemented slot booking, real-time tracking, QR-based access, secure login, and role-based user management.
- Worked with both web and mobile components of the system.

Smart Garbage Management System | 2026

Technologies: Node.js, Express.js, MongoDB, JWT, Postman, Security Testing Tools

- Developed a secure backend system for waste collection management.
- Implemented authentication, role-based access control, API validation, and secure API endpoints.
- Applied basic OWASP security practices during development and testing.

PROFESSIONAL REFEREES

H.Thisaru Saduranga

Senior Software Engineer

Zincat Technology

Phone: 0770604104

Email: tsaduranga@gmail.com

Eranga Walisundara

Assistant Manager - cyber security

Gennext(pvt) ltd - Gennext.lk

Phone: 0717763549
